INDIANAPOLIS, Oct. 13 .- In a speech here to-night before the business men of this city Secretary of the Treasury Mc-Adoo disclosed his new plan for shipping legislation.

He had just started out from Washington on a trip across the continent, chiefly for the purpose of stirring up sentiment for a revival of the effort by the Wilson Administration to push shipping legislation through Congress. Mr flecting the stand that President Wilson

President Wilson, according to a high Washington official, is now in agreement with Secretary of War Garrison on the main features of the Secretary's plan for the reorganization of the army.

This plan provides for the creation of a reserve, for increases in the regular army and in the militia, for improvements in the coast artillery defences and in the quantities of reserve ammunition and equipment, Secretary of the Navy Daniels will recommend a five year continuing

programme of construction for the Navy, but the details have not been worked out yet. Army and navy officers are pessimistic over any large increases in the military establishment in the immediate future, and fear that the Adminis-

tration's programme will be based chiefly on promises for the future.

Special Cable Despatch to THE SUN. MEXICO CITY, Oct. 13.-Gov. Lope: le Lara published a decree to-day prohibiting natives and foreigners from flying foreign flags over auto nobiles, residences and business e tablishments, excepting legations and consulates, which may always use flags, and on foreigners' residences and offices on national holidays. The penalty for disobedience is expulsion from the country, or a fine of 500 pesos and imprisonment from three to thirty days. The decree explains that the promiscuous and constant use of foreign flags for protection, as heretofore, is no longer neces sary, as the Constitutionalists are giving full protection to lives and property.
